Chaffey College
Extra Credit Assignment
Veteran Scholarship

I was awarded a Veteran Scholarship of $200 through the Student Veteran Scholarship program here at Chaffey College in October of 2017 and the entire ordeal was not only uplifting but also very helpful monetary wise.

I first came to Chaffey College in 2014 after a few unfortunate life changes that occurred in my life. The first of which occurred in 2013 when I was laid off from my Information Technology job at the American Red Cross after 10 years of working there. The next which occurred in 2014 when I was laid off from my Information Technology job at Universal Technical Institute after 7 months of working there. The third of which also occurred in 2014 when I found out the 18 classes and the 60 units of Computer Networking classes that I took at DeVry University in Pomona were not accepted at California State San Bernardino towards a four-year degree. The situations not only left me frustrated but they also left me broke, with a family to support and with dreams that would go on unfulfilled.

In 2013, the American Red Cross decided to outsource their Information Technology work to a company called Unisys. In doing so, the company saved money

on internal salaries and benefits and were able to pull from a good source of personnel with unique Information Technology backgrounds and disciplines. This was a good position for the company but a harmful one to me and to my family. I felt hurt because I dedicated the last 10 years of my life to a place and made many friends there and had many sleepless nights on various projects to improve the company and to improve the communities in which their work reached.

A few months later in 2014, I was able to find work at Universal Technical Institute trying to recover from being upset and hurt and trying to learn a new place in order to fit in and to utilize my skills. I learned more about computer networking there and also did more work on more cutting edge projects with more up to date and recent equipment and technologies. After 7 months, I was called into the boss's office and was told there were layoffs company-wide and the Information Technology department would be hit with a 50% reduction in workforce. I was hurt once again because I had just come from this same place not even less than a year ago. I had just started an HTML class at Chaffey College on the same night of my layoff and I had to be in class trying to learn while also trying not to be devastated again. This time I did not try to find work right away because my wife's grandmother was diagnosed with stage 4 cancer and was going to need help getting around from the doctor visits and to make her life comfortable until she passed away. Therefore I stayed home for a year and collected unemployment and continued with school and took care of grandma.

Unemployment only paid about 10 dollars an hour on average for me and this was not enough to take care of three children, a wife and now a mother in law and a grandmother with cancer, so I was looking for additional ways to earn funds while taking

care of everyone. I found out about scholarship opportunities via email and decided to see if there was any help I could get and if there were any scholarships that I could take advantage of. Therefore, I applied and was awarded a $200 Veteran's scholarship and you would think that I won the lottery. Finally, something began to go my way!

The scholarship helped me pay for classes without feeling guilty that my wife was paying all of the bills mostly alone. The scholarship helped me to focus on helping my wife's grandmother without wondering how I would afford gas and bills. The scholarship helped me to realize that my goal of graduation was still near and I did not have to stop going to school but could continue on and press on towards graduation. 200 dollars may not seem like a lot of money to some, especially in today's time and day where you can pay that amount for a pair of sneakers, but when you can rent books for 20 dollars and where you can get waivers to pay for your classes, 200 dollars did not equate to me as money any longer but actually turned into opportunity to me. An opportunity to feed my future and to help others through teaching them the various disciplines of computer technical training.

UNOFFICIAL TRANSCRIPT

Your GPA information is updated after all grades for the session have been posted.

Repeated courses are indicated by an 'E' or 'I' in column 'R'. 'E' is a repeated course excluded from your GPA. 'I' is a repeated course included in your GPA.

Print Date: 07/12/2016

Student Information

Name: Christopher Lee Liddell

DSI: D03183533

Student Type: Re-Admit

Curriculum Information

Degree: Bachelor of Science

Program: Computer Information Systems

College: Coll of Engineering & Info Sci

Campus: CA Pomona

Major: Computer Information Systems

Concentration: Undeclared

Degree Awarded

Awarded: Associate of Applied Science **Degree Date:** Feb 27, 2011

Institutional Honors: With Honors

Program: Network Systems Administration

College: Coll of Engineering & Info Sci

Campus: CA Pomona

Major: Network Systems Administration

Major Concentration: No Concentration

Program GPA	Cumulative Earned Hours	Cumulative GPA
3.93	71.00	3.93
